

Superior Fine Art Giclees

Fine Art Printing Service by West Shore

Price List January 2008 – Giclees created from Original Art

West Shore can produce Superior Fine Art Giclees from your original artwork.

When we are printing the first Giclees(s) of your image:

Price for first-time Giclee = Capture + Setup + Proof + Print(s)

On future Giclees of the same image, you pay for the Print only.

We will electronically store your digital file (made from the Capture + Setup), and store the approved hard copy of your Proof. This will insure that your subsequent prints will match the original run.

Capture: Bring in your original art. This will enable us to create a proof with the closest match to your original piece. We will professionally light and photograph your art and create a digital file to prepare for printing. For Photographic Art, we can scan your slide or negative instead. If you are having a photograph reproduced and have the original digital file, there will not be a Capture charge, but there will be a Setup fee. Contact West Shore to verify the suitability of your digital file type for Giclee output.

Setup: Includes Preparation and Color Management. Your digital file will be prepared for printing. The digital file will be sized and optimized for the closest match of color, value, intensity, contrast, etc. to your original art. We will compare it to your original for the truest representation possible in a printed image.

Full Setup applies to Giclees of Original Art. Partial Set-Up applies to Giclees of Photographs where the original digital file is available and no Capture or Color Management is required.

Proof: A small proof will be printed on the media of your choice for your signed approval. Proofs are priced at one square foot of the media you choose. You may order additional Proofs for yourself at the same price per Proof.

Print: After Proof approval, your Giclees will be printed to the full size you ordered on fine art media. Prints are priced per square foot of the Media that you choose.

Coating: Giclees on Canvas will be coated for protection. Coating choices are Premier Gloss, Premier Matte, and Premier Satin. Coating is included in the cost per square foot for Canvas.

Additional services available: Canvas Stretching, Matting, Mounting, Custom Framing, and Print-on-Demand Order Fulfillment.

Superior Fine Art Giclees

Fine Art Printing Service by West Shore

Price List January 2008 – Giclees created from Original Art

Capture	\$ 60.00	Original Art, Slide, or Negative Provided. West Shore will photograph or scan art.
Setup- Full	\$ 60.00	For making Giclees of original Art other than photos. West Shore has created the Capture of your art. This is recommended for the best printing results. Setup image on computer to prepare for printing. Includes image prep, Color Management, and sizing. (If digital file is provided by Artist and not created by West Shore, files may need extra setup work in converting and Color Management for optimum printing results. If it appears extra time will be needed, we will quote before proceeding.)
Setup- Partial	\$ 30.00	For making giclees of Photographs. Setup and size image on computer to prepare for printing. Partial Setup fee applies for photographers who are having a photograph reproduced and have the original digital file, and no Color Management is desired. A Proof (see below) will still be run to make sure the color output matches your expectations. If it does not, then we will proceed with Color Management and charge the Full Setup fee of \$60.00.
Proof	1 Square Ft of Media Used	Proof size will be approximately 8x10, depending on the shape of your art. Proofs will be kept on file at West Shore, so reorders will not require your original art for comparison. After your approval of the Final Proof, additional Proofs for your own use may be ordered at the same price. If you are printing your image on several types of media, you will need a Proof for each media ordered.
Print	See Media Prices	Priced per square foot, rounded to the next highest half foot. Minimum charge one square foot. Final size for pricing includes a standard 2 inch border around the printed image. (For example, if your printed image is to be 16x20, the final size will be 20x24, or 3 ½ square feet.) If you would like a different size border, let us know when placing your order.
